Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/10/06 has been entered.

Response to Amendments

The amendment received 2/10/06 has been entered in full. Currently claims 25-37 are pending.

Response to Arguments

Applicant's arguments, see pages 7-10, filed 2/10/06, with respect to claims 25-35 have been fully considered and are persuasive. The rejection of claims 25-35 has been withdrawn.

Allowable Subject Matter

1. Claims 25-37 are allowed.
2. The following is an examiner's statement of reasons for allowance: Based on the Applicant's persuasive arguments the rejection of the claims has been withdrawn. Specifically the Applicant's arguments in regards to the motivation to combine Madden and Toh was found to be persuasive, thus none of the prior art discloses in combination with the other limitations of the claim, a process for measuring three-dimensional objects in a three-dimensional environment, comprising the steps of detecting

discontinuities of appearance in the image; relating said discontinuities with geometric contours, said contours having positions and shapes in the image which are defined by parameters including numerals, matching said geometric contours with said discontinuities by adjusting said parameters; and numerically relating said geometric contours with geometric objects in the three-dimensional environment, three-dimensional positions and volume shapes of said geometric objects in the three-dimensional environment being defined by three-dimensional parameters including numerals. Thus claim 25 is allowed. Claims 26-37 are dependent on claim 25, thus are allowable for the same reasons given for claim 25.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
